### Crop Insurance Minute

#### Jim Ward

Ag Partners Cooperative has been offering Crop Insurance since 2002. In that time many things have changed in the industry. We've always strived to stay abreast of those changes and make sure the best options are presented to our patrons. One of the new options for 2019 is called **Multi County Enterprise Units**.

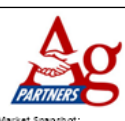

It allows the option to expand a qualifying enterprise unit from one county to a neighboring county where you may only have 1 field. If you have any questions or would like a visit to go over options available to you please call Jim Ward at (785) 741-1652. Signup deadline is **March 15**.

### Grain Market Update

#### Lincoln Hillyer: VP of Grain

Ag Partners is looking to enhance your grain experience by introducing a daily email to help with your marketing decisions. This short, one-page document will catch the latest market news, any local basis changes, and daily contracting ideas. The intent of this communication is to keep you up-to-date with information, while not overloading you with too many thoughts.

We are looking to roll this out in conjunction with our new website. In order to sign up, look to enroll on our website or contact someone in the grain office. The emails will start shortly.
